Round wires

Compression

Torsion

Traction

Formed wires

Flat wires and strips

Spiral spring

Spring washer

Leaf spring

Wave spring

PRECISION SPRINGS

Pump and valve springs

For the pharmacy, cosmetic
and perfume industries

Precision polishing

For the aerospace Industry

Precision cutting (EDM)

Spring washers and wave springs

For the aerospace Industry

Tribo-finishing

Cosmetic and perfume industries

Pickling and passivation

Aerospace, pharmaceutical
and medical industries

Harness springs for looms

Textile industry

OUR SPECIALTIES

Means of production

Automated systems

Assembly
Mass production grinding

PHARMACY

Automated supervision of production
and cleaning in cleanroom

PERFUME & COSMETIC INDUSTRIES

Automated production
supervision

TEXTILE INDUSTRY

Automated screwing of harness
springs for looms

AEROSPACE

Precision cutting (EDM), unit finishing of parts,
heat treatment of special alloys

AUTOMOBILE

Robotic grinding and sorting

bpifrance
EXCELLENCE

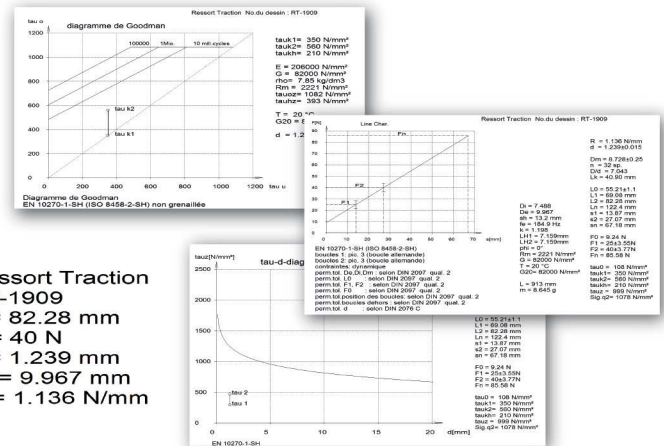

INNOVATION

...related to the EN 9100
for the aerospace industry
and GMP for the
pharmaceutical industry

Ressort Traction
RT-1909
L = 82.28 mm
F = 40 N
d = 1.239 mm
De = 9.967 mm
R = 1.136 N/mm

Traceability monitoring

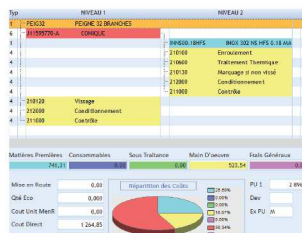

Barcode identification on bags and packing boxes

High level of monitoring
of our production
processes

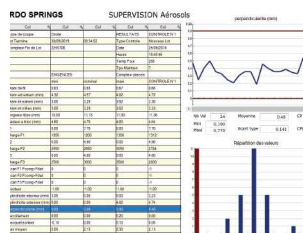

Accuracy of measuring equipment

Change management

SPC analysis

Means of inspection

Digital, optical and mechanical

Automatic spring load machines,
dimensional control by optical system,
automatic inspection and supervision systems

CONTINUOUS IMPROVEMENT

ISO 9001 and EN 9100 certification

10, Rue Benjamin Delessert
60510 BRESLES - FRANCE
